

## HOW IT'S MADE

- 1 Plastic is collected from the ocean.  
First collection point: The Maldives.
- 2 Material is sorted and cleaned.  
Unused material is sent to another recycling plant.
- 3 Material is flaked, then heated into pellets.
- 4 Pellets stretched into yarn, then woven into fabric.
- 5 Fabric is cut and sewn to build your Daypack.

— EACH BAG REMOVES —  
**5 POUNDS  
OF OCEAN TRASH**

■ **Baltic Blue** (First Stretch Goal)

MADE FROM RECOVERED
